OBJECTIVE

Results-driven Automation Tester with 3.6 years of experience in designing and implementing robust automation frameworks for leading global clients. Skilled in Java, Selenium, Karate DSL, API and Microservices testing, I am seeking challenging opportunities in a dynamic organization where I can leverage my expertise to deliver innovative automation solutions, enhance testing efficiency, and contribute to organizational growth. My goal is to continuously adapt to new challenges, expand my technical skill set, and grow professionally in a collaborative and innovative environment.

EXPERIENCE

Deloitte USI Consulting, Chennai — SDET Analyst

July 2021 - PRESENT

- Worked with one of largest supermarket chains in the US, designing and implementing a robust automation framework using **Karate DSL** integrated with **SQL** Server for data validation, achieving over 95% automation coverage across API and UI tests.
- Contributed and enhanced the **Selenium-Java** automation framework with hands-on experience in **TestNG**, **Jenkins** and **Git**.
- As part of an **Agile** team, I conducted in-sprint automation and utilized **JIRA** for tracking and prioritization.
- Developed automation scripts to validate **Microservices** and **Kafka** interactions, ensuring a highly reliable testing process.
- Implemented **GitHub Actions** workflows for PR checks and scheduled runs.
- Supported a leading US theme park and resort client, delivering automation scripts within strict Service Level Agreements (SLAs), achieving over 80% automation coverage.
- As a code owner, I maintained high coding standards, **reviewed code**, and introduced automation solutions for reporting and SLA calculations, reducing manual effort by 60%.
- **Optimized the framework setup process** by cutting human intervention by 95%.

|------------|------------------|--------------|
| ➤ Selenium | ➤ Karate DSL | ➤ JavaScript |
| ➤ Java | ➤ API Testing | ➤ Jenkins |
| ➤ Maven | ➤ Docker | ➤ AWS |
| ➤ TestNG | ➤ Git | ➤ JIRA |
| ➤ SQL | ➤ GitHub Actions | |

EDUCATION

SRM Institute of Science and Technology, Chennai

Master of Computer Applications (MCA - Online)

CGPA: 9.39

July 2022 - July 2024

Madras Christian College, Chennai

Bachelor of Computer Applications (BCA)

CGPA: 8.15

July 2018 - May 2021

CERTIFICATIONS

Certified Cloud Practitioner – Amazon Web Services

Credential ID R3CGCYJJEJ4E1KS3

Docker Essentials – IBM Cognitive Class

Credential ID 7d5a094b15f749febddf0ac453d13e6d

AWARDS & ACHIEVEMENTS

Applause Award – Deloitte

Awarded for successfully designing and implementing Test Automation Framework and for automating regular daily tasks like status reporting, delivery hours management and SLA calculations.

Hackathon Winner – Freshworks

Built an Integration between Freshdesk and Basecamp. The Integration enables agents to access Basecamp without leaving Freshdesk. Potential Increase in productivity of agents by 80% by reducing the time in switching applications.

PERSONAL PROJECTS

Image Classifier (React.js & Imagga API) – <https://image-classifier.richardjob.in/>

- A Web based Image Classifier powered by Imagga API.
- A powerful back-end built with scalability in mind using Node.js.
- User authentication and storage is managed using Google Cloud and Firebase.
- The Front-end is developed using React.js, a Javascript library by using state management.

Guess IT (Android app) – <https://www.amazon.com/dp/B081511YQM>

- Android number guessing game built using Java and Android Studio.
- The app generates a random number between the given Interval.
- A user has 10 attempts to guess the number.
