COURSES AND CERTIFICATES

Server-side development with Node.js, Express and MongoDB

Coursera – Hong Kong University of Science and Technology

AWS Fundamentals: Going Cloud Native

Coursera – Amazon Web Services

M001: MongoDB Basics

MongoDB University

PROJECTS

Image classifier

A JavaScript image Classifier that is capable of classifying more than 5000 images. The Classifier uses the Google tensor.js pretrained model in the backend which is handled by node.js.

Guess It

A simple Android number game made with Java using Android Studio. The game makes use of the shared storage system of the device to store the user's progress in the game.
